

Residential Water Heater Incentive Program

If you replace your existing water heater or install one in a new home (**minimum of 40 gallon**) you may be eligible for a rebate. Rebates are available for based on the energy factor of the water heater. Energy factor is the ratio of useful energy output from the water heater to the total amount of energy delivered to the water heater. The higher the energy factor, the more efficient the water heater. Invoices must be submitted by 90 days. The incentive program applies to residential accounts only.

If you have installed an electric heat pump water heater, you are eligible to receive a \$200 rebate.

Please do not fill out this form, visit www.2eScore.com to sign up for the program and receive your incentive.

If you have converted from a non-electric water heater to an electric water heater, you are eligible for a \$500 rebate. Please do not fill out this form, visit www.2eScore.com to sign up for the program and receive your incentive.

When you purchase (minimum of 40 gallon)	Incentive
Less than .92 energy factor	receive a \$25 credit on your bill.
.92-.94 energy factor	receive a \$50 credit on your electric bill.
.95 energy factor	receive a \$75 credit on your electric bill.

***Mountain Electric does not endorse electric tankless water heaters.** They have a long payback period, require expensive electrical upgrades, and may create power quality issues.

Just send a copy of your water heater purchase invoice along with, name, address, phone, MEC account number and indicate which incentive you qualify for; to Mountain Electric Cooperative, Attn: Member Services Department, PO Box 180, Mountain City, TN 37683.
